GRADUATE COURSES

COURSE NUMBERS AND LETTERS: Courses numbered 600–699 are broad-based courses, which do not require extensive undergraduate preparation. They are designed for students in other disciplines and may not be credited toward a degree or certificate in the field in which they are given. Each graduate course number is followed by the letter T, G, or X. The letter T indicates the course is credited only toward a master's degree or advanced certificate in the Teacher Education Program. The letter G means the course is creditable only toward a master's degree in liberal arts and sciences. The letter X indicates the course is creditable either toward the master's degree in the Teacher Education Program or toward a master's degree in liberal arts and sciences provided the course is part of an approved curriculum. In some cases, a student may receive permission to apply credit for a course designated as G toward a master's degree in the Teacher Education Program or to apply credits for a T course toward a master's degree in liberal arts and sciences.
