

GRE Requirements for Teacher Education and Leadership Programs

In accordance with the New York State Education Transformation Act of 2015, applicants to graduate programs leading to New York State certification in classroom teaching and/or educational leadership are required to submit a GRE score to Brooklyn College. However, in recognition of the timing, cost, and potential anxiety associated with the GRE, we will review applications for admission for applicants who have yet to take the GRE. In these cases a GRE score report will be required before a student registers for their second semester in the graduate program. Scores will not retroactively alter the admission status of students.
