Transgender Law Center: The coronavirus pandemic and our government's failed response has drastically reshaped our lives for the immediate future, and likely for many months and years to come. But even prior to this pandemic, our governments and institutions kept many of our trans communities in a permanent state of crisis, which is now exacerbated by the coronavirus. Our communities are only as strong as the circles of care we create. Let's use this opportunity to provide a space of solace, political education, and resource sharing. Each week we'll go in depth into the ways this crisis impacts the many intersecting experiences of our communities. We will be updating it with specific topics soon! We'll be providing Spanish and ASL interpretation. The video will be recorded and embedded in this post afterwards for those who miss the call. To RSVP for an upcoming virtual gathering, visit <https://transgenderlawcenter.org/archives/15731>

Organice su lugar de trabajo contra el COVID-19: Trabajadores en todo el mundo están organizando sus lugares de trabajo durante la crisis de COVID-19. Para algunos/as, esto significa organizarse para pedir un cierre total del lugar de trabajo con vacaciones pagadas, para parar la propagación de la enfermedad. Para otros, esto significa conseguir todo lo que necesiten los trabajadores esenciales para responder adecuadamente al virus — incluyendo suministros, niveles de personal adecuado, prestación por condiciones de trabajo peligroso.

Somos un grupo de organizadores y miembros de sindicatos con los United Electrical, Radio and Machine Workers of America (UE) y Democratic Socialists of America (DSA) que podemos ayudarlos a empezar una petición, conectar con otros trabajadores, entablar un dialogo con sus jefes, y organizarse con éxito en este momento de crisis.

Serán trabajadores en las primeras líneas los que muestren el camino durante este crisis económica y política de la salud pública. Por favor complete este formulario y nos comunicaremos con usted.

Monet's garden was his main source of artistic inspiration for the last three decades of his life, and he even painted numerous creations while dealing with visual impairment of cataracts.
