

Registration for the Winter 2024 semester is currently scheduled for Monday, November 6th, through open appointments. Classes begin January 3rd.

Classes offered during the intersession are **very intense**, however with dedication, the motivated student has an opportunity to accumulate credits in a very short time.

We are offering **CISC 3310 – Architecture** during the winter, as per student requests. Courses will only run if they enroll sufficient students.

IMPORTANT NOTE:

All classes will be in person.

However, if for some reason we will have to return to online classes, it is important that you know that for pedagogical reasons, some instructors will require all students to have their cameras on during both lectures and examinations. Face-to-face teaching is the only way to have an effective learning process. Students who do not wish to use their cameras should choose another section. If on any given day, there is a reason why you cannot turn your camera on, you will need to contact the instructor in advance.

Instructors who require cameras will have the following listed on the CUNYFirst schedule:

Cameras will be required. For accommodation contact the instructor

NOTE: ALL EXAMS AND FINALS WILL BE IN PERSON. DATES ARE POSTED ON THE CUNYFirst Schedule.

The CIS Department will be offering the following classes:

CISC 1050 Introduction to Computer Applications
Asynchronous Online EXAMS IN PERSON - Rhein, E.

For information and description on these courses as well as other information regarding the CIS Department please go to:

<http://www.brooklyn.cuny.edu/pub/departments/cis/index.htm>

Students are urged to consult with the Undergraduate Deputy Chairs:

- Professor Ira Rudowsky (day) Rudowsky@brooklyn.cuny.edu or
- Professor Joseph Thurm (evening) thurm@sci.brooklyn.cuny.edu

when planning their programs.

Given the present financial realities it is imperative that all students register as soon as possible for courses within the department. As we approach the beginning of the winter intersession, courses with low registration may be cancelled by the college's administration. Please do not wait until the last moment to register—the course you desire may no longer be available! The CIS department does not give overtallies under any circumstances.

If you need permission for a course or need further advice, please contact an advisor (emails above) immediately. Please send a copy of your transcript as well as your CUNYFirst empID along with your email.
